Dated Bangalore 5th September 1904

Subject.

Electrical Installation for the Military Stores and Workshops.

Submitted.

At present we are using steam to run the lathes &c at the workshop but the upkeep is said to be heavier than that of the electrical power.

After consulting Mr. Gibbs I have come to the conclusion that a 5 Horse Power electric motor and 30 electric lights should be installed in the Stores.

As Mr. Gibbs states that it will take about 6 months to get the necessary appliances from America, I request that if the project is approved early orders may be passed.

The cost which is estimated at Rs 2,500/- will be met by appropriation from the savings in the Transport Budget.

FOR ORDERS.

No 73
Sm: 3

DATED 2 October 1905.

SUBJECT.

Electrical Installation for the Military Stores and Work -Shops.

In Memo No 31 of the September 1904 I requested you sanction for the erection of a 5 Horse Power Electric Motor and Electric Lights for the Military Stores at a cost of Rs 2,500/- which you were pleased to sanction and the Motor has now been erected.

I understood when making the application that shafting and all additional pipes etc would be included in this sum.

I now find that owing to the dangerous nature of the Installation a Motor Shed is required and section Shaftings and pipes which will cost an additional Rs 1,300/- to make the Dynamo useful.

I should not that the first application has been sanctioned the information wanted must be supplied. The information with whole expenditure must be borne in mind at a moment's notice. Statement sent in connection with the correspondence. Full investigation should have been made in the first instance to avoid the necessity of additional expenditure.

Sir,

? 657 BANGALORE POWER AND LIGHTING

Your 695 of August 27th to Major de Lotbiniere has been forwarded to me for action. You say you want power equal to 4 H.P. engine. Three Horse power and five Horse power are the standard sizes. I would advise you to instal the 5 H.P. which will enable you to slightly increase the capacity of your shop should you at any time desire to do so. Such a motor installed ready for service would cost approximately Rs.2000/- and lights will cost Rs.12/- per lamp installed complete. This information may be ~~of~~ all that you require, if not, I will be pleased to meet you some morning about 8 O'clock if convenient and advise you on the location of lights and motor.
